

UM-25Q1N

USB Microphone

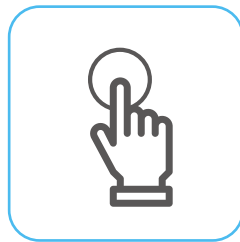

Perfect for meetings, live-streaming, remote training, and podcasts

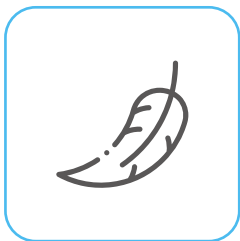

360° omnidirectional pickup

USB Plug-and-play

Touch button with LED light

Compact & light-weight

Flexible gooseneck style

Durable with anti-skid pad

Product Features

- 360° omnidirectional pickup pattern for maximum coverage and natural sounding. It effectively eliminates distracting background noise, achieving excellent audio clarity.
- Plug-and-play connectivity to any USB-enabled device, no drivers needed (compatible with Windows XP / 7 / 8 / 10 & Mac Os operating systems). The simple setup makes you start meetings and recording quickly.
- Light-weight design for live-streaming, online discussion, remote training, and recording.
- One button touch sensor mute with LED light.
- Flexible gooseneck style for adjusting height and angle freely.
- Durable and rugged with anti-skid rubber pad, making the microphone stable on the table.

Product Specifications

- Polar pattern: omni-directional
- Impedance: $\leq 2.2\text{K}\Omega$
- Frequency response: 50Hz~16KHz
- Voltage: DC 5V
- Sensitivity: $-38 \pm 3\text{db}$
- USB cable length: 1.35M
- Sampling rate: 44.1KHz / 48KHz
- Weight: 198g
- Bit rate: 16bit
